**Familiar:** MySQL, C, jQuery, PHP, Redux, Bootstrap, WordPress

**Tools:** VS-code, GitHub, Figma, Chrome Dev Tools, Android Studio, Netlify, Postman, Wordpress

**Soft Skills:** Communication, Teamwork, Leadership

## Projects

---

### Front End React Web App | [To-do List](#) | [GitHub](#)

- Developed a responsive and dynamic to-do application using React, implementing features for adding, editing, and deleting tasks, thereby enhancing user productivity and task management.
- Utilized React hooks such as `useState` and `useEffect` for state management and lifecycle handling, ensuring efficient and smooth user interactions within the application.

### Full-Stack Web App | Social Distribution | [GitHub](#) | Sept 2022 – Dec 2022

- Worked on building a robust RESTful API using Django to efficiently handle HTTP requests.
- Engineered dynamic and user-friendly Login and Sign-up pages with React.
- Implemented secure user authentication by generating JWT tokens on the backend, decoding them on the frontend, and securely storing them in the browser.

### Android App | Habits | [GitHub](#) | Sept 2021 – Dec 2021

- Developed a habit tracking application using Firebase, Java, object-oriented design and following scrum practices leading a team of 6.
- Designed the App layout using Figma to showcase user stories and UI elements.
- Built Login, Sign-up, Profile and User Search pages to make the App user friendly.

## Education

---

### BSc in Computing Science | University of Alberta | Sept 2018 – Apr 2023

- Related Coursework: Algorithms, Database System, Software Engineering and Development, Web Applications and Architecture and Intro to AI.

## Work

---

### Customer Service Representative | Goodmorning.com | Sept 2023 – Current

- Delivering top-tier customer service for an e-commerce leader in mattresses by employing effective communication to resolve inquiries, concerns, and issues promptly.
- Coordinating with software team to integrate customer feedback to boost website functionality.

### Manager | McDonald's | May 2019 - Sept 2023

- Lead a team to provide remarkable customer service in a fast-paced environment.
- Consistently meet daily sales and time targets by motivating and managing the crew.
